

I Believe In Life B4 Death

I 'm growing up
making friends
dreaming my life away
I keep on walking
I 'm coming home
and being family
I believe in my life

I believe in life b4 death
There is so much light in it
so I am not sad

I have fun,
make love not war
I smile a lot
I 'm feeling music
I move my body
shake everything I 've got

I like flowers
and also flavours
gardens are my paradise
So I keep healthy
not drinking much, maybe someday I 'm old and wise

I am glad
