### **Chillin' Under Palm Trees**

Watching how the birds fly  
In the middle of the blue sky  
Geckos running over stones  
There's no ringing of mobile phones

*Chillin' under palm trees  
White sands to our knees  
Chillin' on the palm beach  
Listening to the virgin's speech*

Turtles coming once a year  
After months babies are growing here  
In the shells of the deepest ground  
We can hear the paradise sound

*Chillin' under palm trees...*

In the water you can choose the fish  
For tonight's fresh organic dish  
A coconut falls on your head  
It's very seldom don't be afraid

*Chillin' under palm trees...*

Sleeping there without a tent  
Me and the moonshine on the sand  
Island where I can find my peace  
It's Crete to the south of Greece

*Chillin' under palm trees...*
